EMPOWER
YOURSELF.

phios
we empower your business

Developing highly sophisticated cloud, web and mobile software solutions as well as embedded systems for our customers is an exciting challenge. Would you like to accept this challenge with us? Are you used to thinking "out of the box" in unconventional ways? Then you are the right person to join our team!

With its headquarters in Ruggell, Liechtenstein, phios has been around since 2007 and has an excellent reputation as reliable software engineering partner who delivers best quality in time. Our team of 25 highly qualified software engineers, architects, product owners and consultants give their best every day for a great customer experience.

SENIOR SOFTWARE ENGINEER (.NET / WPF)

Valencia, Spain

THIS APPEALS TO YOU

- Designing and developing sophisticated software systems, mostly from scratch.

- Working agile in scrum teams and drive continuous improvement within your projects.

- Supporting our product owners with your technical knowledge to define software requirements.

- Managing working time on your own terms while coordinating with the team and our customers.

- Occasionally travelling to either Ruggell or Valencia to get in touch with your team members and work together in the projects.

- Working in motivated and open-minded teams with direct relation to our customers.

THIS IS YOU

- You have a university- or technical college degree in Computer Science or a related discipline.

- Profound experience in software development using C# with WPF and database know how.

- You have a flair for UI design and usability.

- Passionate about good software- and component design (CI/CD, Refactoring, Unit Testing).

- You are a clean code enthusiast and are applying clean code principles in your daily work.

- As a team player you enjoy working together with colleagues.

- Strong communication skills in English with the ability to work in intercultural & distributed teams
