Edwards

Make a meaningful difference in the lives of patients

At Edwards, our Quality teams help shape the development of breakthrough technologies to ensure each stage of our innovation process is held to the highest standards of integrity and safety. You'll bring your passion for problem solving and partner with various teams to influence decision-making for a product's entire lifecycle.

This is an 18-month, two-part program, that gives you the unique opportunity to work alongside subject matter experts at the forefront of cutting-edge medical technology.

How does it work?

Part One - This is a 6-month internship, where you'll train with the passionate team members who are making a meaningful impact at Edwards.

Part Two - Subject to satisfactory evaluations of Part One, this is a 12-month postgraduate program where you'll gain hands-on experience supporting the work we do for patients.

Program timeline:

Inspiring opportunities available within three teams.

Quality Engineering

Dedicated to patient-experience excellence, you'll apply engineering principles and conduct lab experiments to support the quality of our devices.

Quality Compliance

Focused on supporting partnership satisfaction, you'll investigate customer inquiries and, provide timely resolution to complex obstacles.

Quality Systems

Responsible for patient-critical processes, you'll assist with shipments, ensure regulatory compliance, and handle software management.

"During my internship, I realized the pivotal role of Edwards in enhancing patients' lives... I am happy to say now that my tenure at Edwards has been a cornerstone of my professional career."

Carlos - Sr. Manager, Quality

How you'll benefit:

- Professional growth and access advanced training
- Enhance cross-cultural communication skills
- Competitive compensation and comprehensive benefits

What you'll need:

- Currently enrolled in your final year of university studies & remain enrolled for the duration of Part One of the program.
- Studying an Engineering or Science discipline
- Availability to work full time
- Fluent in Spanish and English
